## STRONG FAITH IN THE SAVIOR

### His Mercy a Healing Fountain.

Christian Science Does Not Proclaim New God Nor New Law.

Neither Are Steps to Salvation Un usual-Bicknell Young Explains Doctrines of Mrs. Eddy.

OGDEN, Utah, Feb. 4-Bicknell Young, C. S. B., from Chicago, lectured at the Grand opera-house this evening on "Christian Science" Mr. Young is a member of the board of lecturers of the mother church in Boston. He is on his way home after a tour of the coast cities. He was greeted by a large audience and spoke, in part, as follows: Synopsis of Lecture.

"Christian Science may be defined as the science of all that relates to God, and is science not only in relation to healing, but as corrective in relation to all problems of existence. Accepted theories, of religion and science have scoffed at the association of these words, but reason and logic show conclusively that science must relate to truth, and, therefore, to God since God is the cause and basis of all that is true.

since God is the cause and basis of all that is true.

"Christian Science does not proclaim a new God nor a new law, but comes declaring the same God, and the same law that Jesus declared, the one infinite eternal God, who is good, and his good and unchangeable law. Christian Science declares the omnipotence, omniscience and omnipresence of God, as do all other denominations, and upon that basis shows that evil has no power, knowledge or presence; in other words, that it is unreal.

"Christian Science never ascribes evil
"Christian Science never ascribes evil
to God or makes him in any way responsible for it, but shows that evil originates
in a belief of material existence entirely
apart from God, and unsupported by science or truth. Of all people Christian Scientists believe most absolutely in Christ.
They accept the teachings of Christ Jesus
without reservation. They declare that
his command to heal the sick is as binding as that to preach the gospel, and that
there is no evidence that it was intended
for his time only. It was scientific re-

ligion that healed the sick in the time of Jesus and his disciples, and it does the same work now, and must always do it, since his life and work were an example for all time, and his method was a uni-versal and imperishable heritage of man What Christian Science Means.

"It is erroneous to suppose that Christian Scientists deny the reality of things. They affirm the eternal existence of all things, and that they exist in the divine mind in their perfect individuality and proper order. They deny the materiality of things, including all the discordant conditions that material things manifest.

Not Opposed to Doctors.

How Disease Is Cured.

What Christian Science Means.

'The steps of salvation in Christian Science are not unusual. As in other denominations, they involve the admission or conviction of sin, sorrow for wrongdoing, or repentance, and reformation manifested in a corrected life. Salvation in Christian Science, however, includes exemption from nickness, want and woe as well as from sin. It is not contingent upon death, but is a way of life, a way of righteousness. Christian Science is founded upon the Hible. The Christian Science textbook is a commentary upon the Hible. Other denominations have commentaries, but no other book in the world has ever accomplished as much as this one. Thousands of people have testified that they have been healed, some of them of so-called incurable diseases, through the perusal of this book. In some instances this testimony has been given in courts of law, and has not been in the least shaken by cross-examination. Many of these cases involved the most terrible diseases known to mankind, such as cancer, tuberculosis, locomotor ataxia, and in other instances such diseases as asthma, hay fever. St. Vitus dance and others.

"It is erroneous to suppose that Christian Scientists deny the reality of things. Opening of Salt Lake Roule.

Will Not Be Done Hurriedly and May Be Within Sixly Days.

CLARK DETAILS

COMPANY PLANS

Vice-President of New Road Confers With Officials and Several Committees on Future Celebration.

Not Opposed to Doctors.

"Christian Scientists are in no wise arrayed against those who believe in materia medica. They were all believers in it themselves until they found in Christian Science a more efficacious way of healing. This way they believe to be the best one because it is God's way, as shown in the works of Jesus. Although charitably disposed toward those who practice materia medica. It is a well-known fact that materia medica is merely an experimental system. Surely, after four thousand years it ought to be beyond this stage. Furthermore, it is a self-confessed condition of weakness that combinations of medical societies and the medical fraternity generally should come before our Legislatures demanding special legislation, the tendency of which is almost invariably to shut out all other systems. Nor can any valid excuse be given, as far as Christian Science is concerned, on the ground of protection to the public since Christian Scientists do not advertise nor sanction quackery, and they believe in obeying the regulations of Vice-President J Ross Clark of the Salt take Route arrived from the East yesterday, accompanied by his wife, and left last evening for Butte on business. He will return to the city within a few days, when he will go to Los Angeles over the new railroad, accompanied by General Manager Wells and party, thus making the first trip over the line in the cars of the company.

Mr. Clark had much to engross his attention yesterday. As vice-president, he has been in charge of all construction work, as well as the general details of the work on the road, and has handled the heavy task with signal ability.

not advertise nor sanction quackery, and they believe in obeying the regulations of health boards in relation to contagious During the day he met with the commitse of the Commercial club and City Council on the matter of a suitable celebration on the completion of the new road. Mr. Clark assured the members of each comout the details for the plan, but it would be about the middle of next month before the trains would run, and in the mean-time the matter would be definitely ar-

How Disease Is Cured.

"Those who believe that mentality plays some part in disease and its cure generally look in the wrong direction, and say that the cures of Christian Science are effected by mental suggestion, hypnotism, will power, mental science (which is spurious and not related to Christian Science), or to some other erroneous or material belief. Christian Science, however, declares that it is God who heals diseases through Christian Science, and they, of all people, know hest.

"We scarcely dare to think what the world would have been had not there appeared from time to time a man or woman good enough and great enough to be touched by eternal truth, and brave and self-macrificing enough to stand for it. Mrs. Eddy discerned and proclaimed to the world the God-given freedom of the race from all sickness, sin, want and woe. She revealed the science by which men may begin to realize that freedom and enter upon their heritage of dominion over evil. Some time this knowledge had to come.

"According to the promise of Jesus, it time the matter would be definitely arranged.

When seen by The Tribune Mr. Clark was busy with those matters, but he was very willing to speak to the public through the newspaper.

"I have just returned from the East." he said, "where I went on business relating to the railroad. It was the greatest cause for satisfaction when word came that the connection had been made, and with that great feat accomplished the est cause for satisfaction when word came that the connection had been made, and with that great feat accomplished the rest of the work is comparatively easy, although it is equaliy important to finish off the line in the most perfect manner possible, to make it equal to any standard track in the country. All this work takes time, but when finally completed the public will realize what it means to construct such a railroad as the one joining Salt Lake with the Pacific occan.

"But it will be something like sixty days yet before the road is formally thrown open to traffic. It would be inadvisable to begin right now, and the company does not care to try any experiments, but will wait until all its in readiness, and when once the line is open there will be no delay thereafter in putting trains through in short order.

"The last of the new engines are on the way and the new equipment will be along in a few weeks and keep coming for the next three months. A large quantity has been ordered and it will be of the latest pattern, and in this respect the new line will be up to the standard of the best Eastern roads."

BROAD-GAUGING A ROAD.

Work Being Pushed on the Carson & Colorado.

SAN FRANCISCO, Feb. 4 .- The work of broad-gauging the Carson & Colorado road is progressing satisfactorily, despite the bad weather, and the Southern Pacific people expect that by the 16th of this month they will be able to run broad-gauge trains as far as Wabuska, which is thirty-eight miles from Moundhouse.

It is expected that the balance of the

100 miles to Sodaville will be completed within two months.

Tonopah road from Sodaville to Tonopah, which is under a different management, is also to be broadgauged, and it is said that inside four months cars will be sent dir Oakland into Tonopah." roads are to be in running order by the

TOANO TO ELY, NEV.

Southern Pacific Will Build That Important Branch Line.

P. H. Cannon, a prominent mining man from Cherry Creek, Nev., is in the city for a few days on business. He reports the mining industry in that neighborhood as sharing in the general improvement now noted throughout the State

In conversation last evening he gave out some news that will be read with interest by all who are looking to the neighboring State as a field for investment and gen-

eral development. The Southern Pacific, he states, will the Southern Facilic, he states, will build a branch from Toano to Ely via Cherry Creek. The distance is 147 mites, and the line is to be completed by September 1. The line will be completed as far as Cherry Creek by July 1. The whole line has been surveyed and material for the work is now being received. From a traffic standpoint the new line will develop only mineral tonnaso, but that is what the railroad is looking for in that neighborhood, to develop a local traffic for its lines.

The country, like other parts of the State, is rapidly filling up with prospec-

was to be the spirit of truth, the Comforter leading into all truth. Some one had to be good and pure above all others in order to perceive it. Any great discovery along a given line is always made by one whose thoughts, desires and studies are reaching beyond those of other people.

"That Christian Science has a place in the world's thought today is due entirely to Mrs. Eddy. There was a time when she stood absolutely alone with God and incurred the ridicule of ignorance and the hostility of theoretical forms of religion and material modes of medicine because of her discovery of Christian Science. Today the whole world is upilified by her teachings and example, and, because of it, human thought is rising somewhat from the depths of gross materialism. There are the simple facts. I should consider it presumptious to praise Mrs. Eddy. A character touched by the deepest humility and illumined with love to God and compassion for man, is Christ-like; it needs no eulogy. Her life is an open book wherein are recorded only good deeds. The signs of these times are prophetic. They point to the stratitude to God that is appearing in the hearts of men for the life and works of the leader of this great movement, destined as it is to accomplish the regeneration of mankind." as it is to accomplish the regeneration of

# BAPTIST MINISTER CURED OF CONSUMPTION

Rev. H. G. Reed, Eminent Divine, and Editor of the Sunday School Lesson, Restored to Health and Strength by Duffy's Pure Malt Whiskey.

"I owe my life to its use. I have lost one daughter by consumption and I believe had she had Duffy's Pure Malt Whiskey she would be alive today."

Gentlemen:—For several years I have suffered greatly with threat trouble and weak lungs. The doctors said I had consumption. I was able to keep up with my work with great difficulty, but I finally got so bad that I had not strength to deliver an address. A member of my congregation recommended and brought me a bottle of Duffy's Pure Mait Whiskey. I took that one and later on several more bottles, according to directions, and it has completely cured me.

I am opposed to whiskey as a bevera ge, but I know that your whiskey, which is sold as a tonic, is a most valuable medicine. I feel that I owe my life to it. I have lost one daughter with consumption, and I believe that had she had Duffy's Pure Mait Whiskey she would have been alive today. I trust that I can be of service to others by recommending your great medicine to them before it is too late—Rev. H. G. REED, Raptist Minister and Ed. Sunday-School Lesson.

# DUFFY'S PURE MALT WHISKE

Consumption seldom attacks until the system is run down and weakened by sickness, overwork, worry, exposure or inherited tendencies. Duffy's Pure Mait Whiskey is the greatest strengthener and health builder known to medicine. It not only checks the ravages of the disease itself but replaces the weakened, destroyed tissues, helps the stomach to more perfectly digest and assimilate food in order that more, richer and purer blood will come from it, and regulates and governs the heart's action, so that the circulation will be strong and powerful, carrying health and vigor to every organ and part of the human body. Duffy's Pure Mait Whiskey is absolutely pure and free from fusel oil—the only whiskey recognized by the Government as a medicine. It has been prescribed by doctors of all schools and sold by reliable druggists and grocers everywhere for over 10 years, \$1.00 a bottle. Every testimonial is published in good faith and guaranteed. Medical booklet free.

CAUTION—Be sure you sel the comming Duffy's Pure Mait Whiskey to be sure you sel the comming Duffy's Pure Mait Whiskey the comming Duffy's Pure Mait Whiskey to select the comming Duffy's Pure Mait Whiskey the CAUTION—Be sure you sel the comming Duffy's Pure Mait Whiskey the committee the committee the committee of t

CAUTION—Be sure you get the genuine Duffy's Pure Malt Whiskey, manufactured by Duffy Malt Whiskey Co., Rochester, N. Y. and put up in sealed bottles, with the "Old Chemist' trade-mark on the label. Beware the many substitutes and imitations offered by unscrupulous dealers, because of the extra profit. They not only will not cure, but are positively dangeror

and when the railroad is finished more mines will probably be opened

Railroad Notes.

It looks good for further construction, with alt Lake us the center. Salt Lake us the center.

The new rement and iron tank at Callente to nearing completion and this, with several other structures will be ready February 20.

Mrs. J. Ross Clark accompanies Vice-President Clark and she will be the first woman to make the trip by rail over the new road when the party leaves for Los Angeles next week. Many men and teams are going over to Colorado to work on the Durango extension, so Colorado will have its share of good times. The Rio Grande will push the extension to an

Slaves to Fashion.

A man unless he be made up in a propor tion of three parts vanity to one of sense may adopt an uncomfortable piece of apparel because the masculine mode of the parel because the masculine mode of the moment proclaims it "the thing," but he will not continue its use. If one needs evidence of the truth of this, remember the various abortive attempts to make men wear uncomfortable shoes, and recall what has happened. Remember also the garrote collar of immense height and sometimes servated edge, and what happened to that, except in the case of the monocle-wearing and brainberoft dude of the pave. But it is different with the hadies. Each of us knows women in whom the proportion of sense to vanity is as five to one in favor of the former, who wear uncomfortable, unsightly and unhealthy heels to their shoes, and, without going into ill-advised particulars, are garbed in other portions of their body than the pedal in manner and form distanted to the physician, wondersome (so far as outward semblance appears) to observers of the opposite sex, and surely as uncomfortable as unhealthy. It would be easy to go into a long dissertation upon the beauty of the trained gown in the drawing-room and the hygiensic horror of that same on the sidewalk, but it is not necessary. Dame Fashion, as has been said some sundry millions of times, usurps the functions of good zense and is an autocrat against whose distance all the progressive health clubs between Chicago and Calcutta will rage in rath-unless, indeed, these clubs, by exercise of almost superhuman intelligence, succeed in getting the capirious dame on their side of the case.—Cleveland Leader. oment proclaims it "the thing," but he

TREATMENT OF PILES

Permanence of Cure the True Test.

Many so-called pile remedies will afford the user slight temporary relief and the majority of those afflicted do not expect more than this. The average sufferer, after having tried every preparation recommended for the cure of piles, comes to the conclusion that there is no cure except by an operation, and rather than undergo this "last resort" he suffers on, resigned

to the situation, so far as may be. attention of those interested is invited to the following experience, "After ten years of suffering from blind, bleeding and protruding piles and after using every remedy I could hear of without any benefit, I finally bought a fifty cent box of Pyramid Pile Cure and used it with such good re-sults I bought next a dollar box, which finished up the job. That was nearly six years ago and as far as piles is con-cerned I am cured, and have never felt That was nearly

a symptom of them since.
"Many others have used this remedy
by my advice with the same results, and I always recommend it to sufferers with piles." C. H. Potts, Burlington, Kan.

Testimony like this should convince the most skeptical the Pyramid Pile Cure not only cures, but cures to stay cured. It is in the form of a suppository, can be applied in the privacy of the home, directly to the parts affected and does its work quickly and painless-

Druggists generally, sell this famous remedy for fifty cents a package, and sufferers are urged to buy a package now and give it a trial tonight. Accept

no substitutes.

A little book describing the causes and cure of piles is published by the Pyramid Drug Co., Marshall, Mich., and same will be sent free to any address for the asking,

#### Hannaford Talks on Rate Problem

Is Opposed to Giving Interstate Commerce Commission More

MISSOULA, Mont., Feb. 4-Vice President J. M. Hannaford of the Northern Pacific railroad, who has been making a tour of the western divisions, expressed himself today as opposed to the Interstate Commerce commission being given power to regulate rates. He said

"Forgetting whatever Interest I may have in the railroads and looking at it from an impartial standpoint, it is hard for me to see how a commission at Washington, D. C., can justly name the rates ington, D. C., can justly name the rates in all parts of the country, thousands of miles away. Gather any number of men there at Washington from any walk in life and they certainly cannot do better at making rates than the railread men who have made it a special study and for that matter, their life work. I have spent about thirty years in the railread business and I assure you that I do not want to be on a commission with such a job ahead of me.

Rates in Different Localities

Rates in Different Localities.

Every section of the country will be appealing to the commission on real or imaginary grisvances, and it is only natural that there would be friction and enmity incurred between the commission and the traffic managers, instead of the harmony which should exist. As a railroad man, I am interested only in making rates along our line, and I let the fellow in Texas or New Mexico make rates for the patrons along his road. What makes a big difference upon our rates has no bearing upon him.

Must Earn Money.

Must Earn Money.

"A certain amount of money has to be carned by every railroad. It must make the operating expenses of the whole road and ought to give a fair return on the capital invested. Hundreds of miles of our 5000 miles of track do not pay operating expenses. Every honest traffic manager must so adjust the rates that the traffic can best afford, to make up the losses, and afterward reduce those rates as fast as conditions will warrant. I am opposed to all secret discriminations and rebates, and every railroad man is. There are none in this section, because the competition is not keen enough, and the Great Northern officials are as anxious to keep out of the hands of receivers as we are."

RED MEN IN COUNCIL.

Important Conference of Indians of Flathead Reservation.

MISSOULA, Mont., Feb. 4.-The chiefs and MISSOULA, Mont., Feb. 4.—The chiefs and head men of the Flathead Indians and their allied tribes are holding an important council on the reservation today. The outcome is anxiously awaited by the members of the different tribes and the whites who expect to locate when the reservation is thrown open by proclamation this year.

The bill which empowers the President to declare the reservation open for settlement and which has passed Congress, falls to provide for timber reserves for the natives of the soil. Chief Charlot, who bitterly opposed the passage of the bill, has summoned the Indians to present an appeal to President Roosevelt asking that certain timber lands be set astic exclusively for the use of the Indians Charlot desires to head a delegation to Washington and present the matter to President Roosevelt in person. It is believed he will carry his point in the council.
